I'm a Software Engineer with a strong focus on web and mobile development, experienced in React, Node, TypeScript and mobile. My passion for problem-solving and dedication to continuous learning have led me to work on diverse projects in various industries. I'm enthusiastic about human-computer interaction, BCI and AI. Always open to new challenges and opportunities, feel free to connect with me.

Skills:
React, Node, Postgres, TypeScript, CSS

Experience:

Red Forest: (August 2023 — Now)
Founder
TypeScript, React, Node, Android, iOS

BRBS: (February 2024 — Now)
Lead Software Engineer
Backends, frontends, mobile, cloud, hardware
TypeScript, React, Node

Enecuum (remote): (September 2020 — April 2023)
Software Engineer
Development (mobile and web)
TypeScript, JavaScript, Kotlin, React, Node
